WINEMAKING

After a meticulous elaboration, this white wine fermented in barrels is the result of a careful selection of the vineyards. Only the grapes from the selected parcels are harvested in boxes of 14 kilos, originating from different sounds. The fermentation process begins in stainless steel tanks and finishes its alcoholic fermentation in barrels of 225 liters of French oak, as well as in barrels of 2500 liters of French and Austro-Hungarian oak. After four months of resting on lees, the wine has been bottled to maintain its freshness and essence. In its elaboration, 70% Viura, 20% Malvasia and 10% Garnacha Blanca have been used.
